2023

ISTARI COMPASS SUMMIT

The Grove, United Kingdom
13th - 15th June
“In an increasingly fractured and polarised world, community matters now more than ever.”

A warm welcome to the Compass Summit.

I am absolutely delighted that so many of you have travelled from across the globe to convene for our second annual summit.

There has never been a more pressing time for this community to come together. It is a time of great uncertainty — geopolitically, economically and technologically. Cyber leadership has never been more important.

The world faces a set of risks that feel both wholly new and eerily familiar. Globally, we stand on the edge of a low-growth and low-cooperation era, tougher trade-offs risk eroding climate action, human development and, most importantly for us as a community, future resilience.

The year ahead has the potential to bring even more challenges; as such, this year’s Summit theme is Leadership in an Age of Uncertainty. We are excited that Tom Standage from “The Economist” is able to join us. As the editor of its renowned “The World Ahead” publication, there is no better person to help set the scene for our time together.

To navigate and thrive in this changing global landscape, we are inviting you to contribute to the conversations over the next two days. This is a special group. We are all here to discuss, share and learn collectively from each other.

As a community, we can create a more resilient future for global business.

Agenda

Tuesday, 13 June :

18:30
Welcome Networking Drinks

19:30
Welcome Dinner - Feast on Cloud 9
A (grounded) hot air balloon tasting dinner

Wednesday, 14 June :
Leadership in an Age of Uncertainty

08:45 - 09:00
Welcome to the Compass Summit
Speaker — Rashmy Chatterjee

09:00 - 09:30
The World Ahead
Speaker — Tom Standage

War in Ukraine, high food and fuel prices, the fight against inflation, the transition to renewable energy and China’s uncertain post-pandemic path are just some of the major trends of 2023. According to “The Economist,” the world has now reportedly entered an era of “permacrisis.” What are the major global trends impacting businesses and what do the next 12 months have in store for senior business and policy decision-makers?

09:30 - 10:15
Is the World Uncertain?
Panelists — Rashmy Chatterjee, Bob Dudley, Tom Glocer
Moderator — Tom Standage

The current geopolitical, economic and technology uncertainty is a very real reality for senior leaders and those responsible for business governance. How are executives responding to current crises and what does the next year look like for those charged with stewarding their organisations through turbulent times?

10:15 - 11:00
Networking and Coffee Break

11:00 - 12:30
Cyber Leadership in an Age of Uncertainty
Panelists — Admiral Mike Rogers, Nadav Zafrir
Moderator — Tom Standage

Cyber leaders are at the forefront of responding to major global trends. The community undoubtedly now faces strong headwinds — from businesses under major financial pressures, a fragmentation in global policies and standards and defending their enterprises from an ever-changing threat landscape. This panel and workshop session ask the Compass community: What are the most important macro trends impacting the cyber landscape, how are they manifesting themselves as risks and, importantly, what can we collectively do about them?

12:30 - 14:00
Lunch
14:00 - 15:00

International Cooperation in Cyberspace

Panelists — Lindy Cameron, David Koh
Moderator — Kate Marks

Cyber leaders continually contend with barriers to international cooperation, such as fragmented cyber ecosystems, the interoperability of standards, supply chain issues and the thorny question of how and when nations and institutions should collaborate. In this session, participants will hear from David Koh and Lindy Cameron, who are tasked with navigating the national cyber strategies and responses of Singapore and the United Kingdom, respectively. Moderator Kate Marks, a former White House official and current Washington lobbyist, will guide the conversation to explore where international cooperation and policies are headed.

15:00 - 15:30

Networking and Coffee Break

15:30 - 16:30

Cyber and the Law

Panelists — Raj De, Adam Hickey, Clive Gringas
Moderator — Mel Immergut

An unmissable opportunity to gain insights from a panel of three of the most distinguished and important policy lawyers in the field of cybersecurity over the past decade years. This session will draw out the perspectives of true thought leaders on cyber law, and policy as they examine the most pressing legal and policy issues facing the global cybersecurity community, including changing data privacy regulation, norms of behaviour in international cyber conflict, and the regulation of emerging technologies.

16:30

Closing Reflections

Speaker — Will Dixon

17:30

Secret Garden Soirée

Join us for a garden party like no other with drinks, canapés, live music and great company!

19:30

Dinner - The Potting Shed
**Thursday, 15 June:**
**Leadership and Collective Action**

| 08:55 - 09:00 | Opening Remarks  
**Speaker** — Will Dixon |
| 09:00 - 10:15 | The View from NATO’s Eastern Flank  
**Panelists** — Lieutenant General Jürgen-Joachim von Sandrart, Lucas Kello, Ciaran Martin  
**Moderator** — Manuel Hepfer |
| 10:15 - 10:45 | Networking and Coffee Break |

The war in Ukraine is in its second year and potentially most dangerous phase. The conflict has changed the global geo-political balance, heightened conflicts and confrontation, as well as accelerated the trend for countries to form into blocs centred on Washington and Beijing. This session will feature a special briefing from Lieutenant General Jürgen-Joachim von Sandrart, the current Commander of NATO’s forces in Eastern Europe, on the status of the current conflict, why it is important and why it matters to the global cyber community.

10:45 - 12:00

**A View from the Cyber-Front - Insights from Ransomware Negotiations**

**Panelists** — Moty Cristal, Lucas Kello, Ciaran Martin

One of the direct consequences of the Ukraine-Russia conflict has been the fragmentation of the major Eastern European cybercrime groups that drive global ransomware. This special session, exclusively for Compass members, is run in partnership with Moty Cristal, former UN diplomat and now ransomware negotiator. It will shed light on the insights he has gained from negotiating directly with cybercriminals and state actors in cyber crises in the fall-out of the war.

Why Should We Bet Big on Software Security?

Facilitators — Amal Kothari, Ken Pentimonti

Leadership Development: Lessons from a Time of War, and a Time of Battle

Facilitators — Abel Archundia, Adam Finkelstein

14:45 - 15:15

Networking and Coffee Break

15:15 - 16:30

Resilience in a Time of Peril - The Thirteen Lives Story

Speaker — John Volanthen
Moderator — Rossa Shanks

In July 2018, the world held its breath while British cave diver John Volanthen and his partner raced against time to find the 12-boy soccer team and coach trapped for ten days in Thailand’s Tham Luang Cave. Named one of Time’s “Heroes of the Year”, his and the team’s story has subsequently been made into the international hit film “Thirteen Lives”. His personal and unique story of preparation, bravery and resilience is a fitting end to the Compass Summit.

16:30

Close and Reception

Speaker — Rashmy Chatterjee
Speakers and Facilitators

Rashmy Chatterjee  
CEO, ISTARI

Nadav Zafrir  
CO-FOUNDER AND MANAGING PARTNER, TEAM8

Tom Standage  
DEPUTY EDITOR, THE ECONOMIST

Mel Immergut  
CHAIRMAN (RET.), MILBANK LLP

Compass: A Community of Action

The Compass is a global community of cyber security experts from business, government, the intelligence community, and venture capital funds. As a community, we convene to explore, debate, discuss and take collective action on the forces shaping cyber resilience today and in the future.

What? A global cyber resilience community, sharing insights and best practice, driving thought leadership and collective action.

Why? Cyber resilience is one of the most significant systemic challenges facing business leaders. A connected world requires collective resilience.

How? Founded on ISTARI’s core philosophy of Collective Power, we convene experts, business leaders, policy makers and practitioners to advance the cyber resilience agenda.
